

Double, even Triple the User Capacity of your Computer Labs

Single PC
with Windows 95

Multiple Monitors,
Keyboards and Mice

APPLICA

The Least Expensive way to add
PC Stations to your Classrooms

Add PC Users to Your Existing PCs

Save money like never before with the revolutionary new product that lets you add PC users without adding PCs. The Applica hardware/software solution allows multiple users to run Windows 95 applications from a single PC. Adding a PC user is as simple as adding a monitor, keyboard and mouse.

How Does Applica Work?

Applica builds on the preemptive multitasking capabilities in Windows 95 by allowing multiple users, each with their own monitor/keyboard/mouse, to display and control applications running on the main PC. It takes advantage of the fact that Pentium and Pentium compatible CPUs run one hundred million or

Shared Internet Access

One of the many benefits of Applica is its built-in Internet Sharing feature. Using just one modem and one phone line, each Applica user can surf the Internet individually or at the same time. Applica supports analog, ISDN and T1 connections and easily pays for itself through saved communications costs.
